

Autosealer™ 2600

Semi-Automatic, Fully Pneumatic & Portable Pipe Thread Sealant Dispensing System

- Applies adjustable amounts of Hernon's® Dripstop® and/or Powerseal® thread sealants behind the leading thread.
- Simply dial the turret to the correct male threaded pipe fitting size: 1/8" to 1".
- Adjustable positive displacement pump accurately dispenses sealant for each cycle.
- Pneumatic, touch activated dispense cycle.
- Dispenses 50ml tubes, 250ml tubes, 850ml tubes, 1 liter bottles and/or 10 liter pails.
